## Precision Moulded MINIATURE BASES

These figures bases are manufactured using the same high quality Light Brown polymer as used in Hexon products. This colour works extremely well as a base for green, green/earth or sand flocking, and there is no need to paint the edges! The textured surfaces provides good adhesion for adhesives and modelling materials. 1.8mm thick, in convenient packs of 12's and 50's

# HORDES & HEROES MEDIIEVAL

## EPIC BATTLES IN THE MEDIEVAL ERA

Hordes & Heroes Medieval is designed as a fast play tabletop historical wargame, which uses hexagon marked terrain as a precise and effective method for moving troops. The rule system is simple and easy to learn, yet sophisticated enough to allow "realistic" battles to be fought between a diverse range of medieval armies. It is easy to play, but more difficult to master.

One A4 Quick Reference Sheet is sufficient to contain all the information necessary to play. The Combat Results Tables can be printed or photocopied, cut and pasted together as required. The main rules need only be consulted when players are learning the rules, and occasionally thereafter, to clarify situations as they arise.

The precision of the movement system and the speed and efficiency of the combat system ensure that the game flows quickly and even a closely fought contest between two armies of 150 points can be concluded within 1½ hours to 2 hours.
